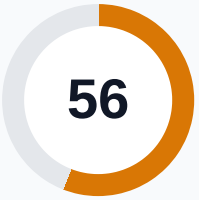
Buckhead Smile Center

2900 Peachtree Rd NW Ste 209, Atlanta, GA, 30305 · https://www.smilecenterteam.com/?utm_source=google&utm_medium=google_business_profile&utm_campaign=website_click



Patient Access Score

4 of 9 checks need attention.

How easy it is for a new patient to find you, reach you and book, based on your website.

What we checked

? **Online booking**
There is a Book button, but we couldn't confirm patients can pick a time instantly.

× **Website chat**
No chat. Visitors after hours have no quick way to ask a question.

× **Text / SMS**
Patients can't text the office from the website.

× **Lead follow-up**
No follow-up or CRM system detected. Enquiries are likely followed up by hand.

× **Reviews on website**
Reviews aren't shown on the website.

? **Ad tracking**
Found: Google Tag Manager. No Facebook/Instagram pixel seen.

✓ **Contact form**
Contact form found.

✓ **Tap-to-call on mobile**
Phone number is tappable on mobile.

✓ **Mobile friendly**
Set up for phones.

✓ **Speed**
Loaded in a reasonable time.

✓ **Secure (HTTPS)**
Secure connection.

What we would set up for Buckhead Smile Center

- Website chat that texts back new enquiries within a minute, day or night
- Two-way texting from your main business number
- Automatic follow-up by text and email so no enquiry goes cold
- Automatic review requests after each visit, shown on your site
- Instant online booking with reminders that cut no-shows
- Analytics and retargeting set up so ad spend can be measured

We set it all up and look after it for you. Usually live in 7 to 14 days, and your team doesn't need to learn new software.
