Cute Smiles for Kids

1819 W Dunlap Ave #1, Phoenix, AZ, 85021 · https://cutesmiles4kids.com/

Patient Access Score

5 of 10 checks need attention.

How easy it is for a new patient to find you, reach you and book, based on your website.

What we checked

✓ **Online booking**
Online booking found (NexHealth).

✗ **Website chat**
No chat. Visitors after hours have no quick way to ask a question.

✗ **Text / SMS**
Patients can't text the office from the website.

✗ **Lead follow-up**
No follow-up or CRM system detected. Enquiries are likely followed up by hand.

✗ **Reviews on website**
Reviews aren't shown on the website.

? **Ad tracking**
Found: Google Analytics, Google Tag Manager. No Facebook/Instagram pixel seen.

✗ **Contact form**
No contact form found.

✓ **Tap-to-call on mobile**
Phone number is tappable on mobile.

✓ **Mobile friendly**
Set up for phones.

✓ **Speed**
Loaded in a reasonable time.

✓ **Secure (HTTPS)**
Secure connection.

What we would set up for Cute Smiles for Kids

- Website chat that texts back new enquiries within a minute, day or night
- Two-way texting from your main business number
- Automatic follow-up by text and email so no enquiry goes cold
- Automatic review requests after each visit, shown on your site
- A short enquiry form that goes straight into your CRM
- Analytics and retargeting set up so ad spend can be measured

We set it all up and look after it for you. Usually live in 7 to 14 days, and your team doesn't need to learn new software.
